Moving Heavy Equipment Across the UAE

Every project has a moment where something heavy has to go exactly where it belongs — safely, precisely, on schedule. Fezan Almadina Transport exists for that moment: mobile cranes, lifting services and heavy equipment for the contractors who build the UAE.

As transporters across the UAE, we run our own fleet — truck cranes, a heavy-duty forklift and a flatbed vehicle carrier — and back it with experienced operators and equipment rental, so clients get machines and transport from one accountable team.

From a single hour's lift to a full project programme, we bring the same discipline to every job: understand the load, plan the operation, and handle every machine like the investment it is.

- ✓ Mobile truck cranes with experienced operators
- ✓ Cranes, forklifts & carrier truck in our own fleet
- ✓ Heavy equipment rental for projects & industry
- ✓ Single point of contact, enquiry to completion

HOW WE WORK

01

Plan Before the Wheels Turn

Load, route and sites are studied before execution — surprises happen on paper, not on the road.

02

Direct, Honest Communication

One team, direct numbers, straight answers. If something needs confirming, we say so.

03

Machines Are Investments

Proper loading, proper securing, proper handling — on every single move.

Lifting & Transport Solutions for Heavy-Duty Operations

01 Crane & Lifting Services

Mobile truck cranes with experienced operators for construction lifts, machinery placement and industrial installations across the UAE.

02 Heavy Equipment Rental

Cranes and forklifts rented on flexible terms — matched to the task and programme, delivered and collected by our team.

03 Vehicle Transportation

Cars and vehicles transported safely on our flatbed carrier — relocations, showroom transfers and recovery across the Emirates.

04 Equipment & Machinery Transportation

Machinery moved safely between sites and facilities — crane-assisted loading and careful securing on every trip.

05 Machinery Relocation

Complete relocations: our cranes lift it, our transport moves it, your operation keeps running — one team throughout.

06 Project Lifting Support

Dedicated crane and equipment support for construction and industrial projects — coordinated with your programme.

Service scope and capabilities are confirmed by our team for every enquiry before commitment.

The Machines Behind the Moves

Our own cranes, forklifts and carrier vehicles — hired with experienced operators.

WHY OUR FLEET

Company-Owned

Our machines, our responsibility — maintained and ready to work.

Operators Included

Every crane is hired with an experienced, capable operator.

24/7 On Request

Availability confirmed fast — hourly, daily or per project.

Need something specific?

Detailed specifications and lifting capacities are confirmed by our team for every enquiry — with no obligation. Call +971 56 985 9206 or +971 50 977 5075, or request online any time.

WHY CHOOSE US

Built for Heavy Loads. Trusted for Tight Schedules.

01 UAE-Wide Coverage

Cranes, equipment and vehicles dispatched across the Emirates — sites, industrial zones and city projects.

02 Our Own Fleet

Truck cranes, a heavy-duty forklift and a flatbed carrier — company-owned, maintained and ready to move.

03 Fast Response

Direct phone and WhatsApp lines to the team — lifting and transport enquiries assessed quickly.

04 Safety-Conscious Operations

Careful lift planning, load assessment and professional handling — heavy loads forgive nothing.

05 Project-Focused Solutions

Lifting and transport planned around your programme — one hour, one day, or the full project.

06 Lift + Move in One Place

Cranes, forklifts and the transport to back them — coordinated by one team, on one number.

SAFETY COMES FIRST

Disciplined Operations, Move After Move

■ Proper planning before execution

■ Load & capacity assessment

■ Lift zone & position planning

■ Professional operators & crew

■ Crane-load suitability matching

■ Coordination with site teams

Operating practices reflect our working approach — formal certifications and approvals are published once verified by the company.

HOW IT WORKS

From Enquiry to Delivery, in Four Steps

01

Send Your Requirement

Submit your transport or equipment need via the quote form, WhatsApp or a direct call.

02

Get a Quote

Our team reviews the requirement and responds with pricing and availability.

03

Plan the Transport

We coordinate equipment, route, timing and project-specific requirements.

04

Delivery / Service

Transportation or rental is executed — machinery delivered, secured, on schedule.

SERVICE AREA

Transportation Across the UAE

Tell us your pickup and delivery locations — our team will assess the requirement.

● Abu Dhabi

● Dubai

● Sharjah

● Ajman

● Umm Al Quwain

● Ras Al Khaimah

● Fujairah

ALL 7 EMIRATES

Coverage for every location is confirmed with our team per enquiry — including route, timing and load details.

Wherever the UAE Builds, We Deliver

Sectors that run on heavy machinery — supported by transport and rental services that keep it moving.

Construction

Crane hire and lifting support for building projects of every scale.

Logistics & Fleet

Vehicle transportation and recovery handled with professional care.

Industrial & Manufacturing

Machinery relocations and plant moves executed end to end.

Warehousing

Forklift rental and material handling for warehouse operations.

Energy & Power

Precise lifting for installations and plant maintenance works.

Equipment Rental

Cranes and forklifts rented with operators, on your schedule.

Industry descriptions describe the sectors we support with transport and rental services — not references to specific projects or clients. Client references are published only with verified permission.

Let's Move Your Project
